

Trends - Forecast Report

1. Commodity Overview

Bananas are currently priced between \$841.3 and \$1685 per metric ton. Looking at the past data, which covers monthly prices from April 2015 to March 2025, we can see how banana prices have changed over time. The lowest price recorded during this period was \$841.3, and the highest was \$1685. In the last 52 weeks, the price has fluctuated between \$841.3 and \$1627.0. The most recent data shows a price of \$1188.0 in March 2025.

2. Future Outlook

Based on current predictions, banana prices are expected to increase moderately over the next year, reaching \$1506.0. While there is a possibility for the price to go higher, there is also a chance that it could drop to levels that have been seen recently. The overall range for potential prices is between \$841.3 and \$1685.0.
